PROFILE

With more than two decades of experience in offering quality education, Aurora's Post Graduate College, Uppal, stands as a beacon of excellence in the academic landscape. Specializing in MBA and MCA programs, the college boasts an intake capacity of 300 and 240 students respectively, ensuring a dynamic and diverse learning environment. Aurora's PG College has cultivated a culture of knowledge, making it "synonymous with learning." The college is dedicated to transforming students into holistic individuals, blending human values, ancient wisdom, and modern thought. This commitment ensures that graduates are well-prepared to excel in a competitive and technologically advanced world.

VISION

To achieve high standards of excellence in management and computer education and research by integrating professional insights, cutting-edge technologies, an enriching learning environment, and social relevance.

MISSION

- To produce high-caliber management professionals capable of excelling in the fiercely competitive global market, equipped with the ability to maximise wealth while promoting human welfare.
- To groom highly competent software professionals who are proficient in cutting-edge and emerging technologies and who embrace continuous learning as the cornerstone of their life and career.
