

HODs

Master of Business Administration (MBA)

Master of Business Administration (MBA) with Marketing, Finance, HR, Systems, as specialisations.

Auroras PG College, Uppal aims to cultivate socially conscious students who possess inquisitive minds and the determination to create positive change. This commitment extends not only to their personal growth but also to the organisations they serve, ultimately contributing to a better world. We strive to achieve this through a combination of educational excellence, innovative research, and social outreach programs.

Our two-year, full-time degree program includes four semesters of coursework, industrial training after the first year, and a final-year project.

Master of Computer Application (MCA)

The Master of Computer Application (MCA) program at Aurora is distinguished by its unique traditions in teaching, student interactions, and overall learning environment. The program emphasises software development, on-the-job training, seminars, and workshops.

Aurora fosters a culture of knowledge and innovation, recognising that innovation is crucial for progress in the modern world. In our pursuit of excellence, we continually enhance and expand our educational and research offerings to ensure our programs remain relevant to students, businesses, and other stakeholders.

This is a two-year, full-time course comprising four semesters, with a project work component in the fourth semester.
