### **Energy Conservation Measures**

Aurora's PG College (MCA) has adopted a proactive approach to energy conservation through the implementation of sustainable practices across its campus. A key initiative in this effort is the replacement of all traditional tube lights with energy-efficient LED bulbs.

This transition not only helps reduce the college's overall electricity consumption but also reflects its commitment to environmental responsibility. LED bulbs are far more energy-efficient than conventional tube lights, leading to a reduction in the campus's carbon footprint. Moreover, with their longer lifespan, LEDs minimize the frequency of replacements, thereby reducing waste.

The proof of purchase for the LED bulbs is attached with this document.

## **E-Waste Management Practices at Aurora's PG College (MCA)**

In adherence to environmental sustainability and responsible waste management practices, Aurora's PG College (MCA), has implemented a structured approach to the handling, disposal, and recycling of electronic waste (e-waste). These efforts align with institutional values and national regulations, contributing to environmental protection and resource conservation.

### **Policy Framework:**

The college has established an e-waste management policy that focuses on:

- Reducing e-waste generation through regular maintenance and reuse.
- Proper segregation and storage of obsolete electronics.
- Ensuring compliance with the E-Waste (Management) Rules, 2016, issued by the Ministry of Environment, Forest and Climate Change, Government of India.

### **Key Practices:**

#### 1. Collection and Storage:

Designated e-waste collection bins are placed in key locations on campus (e.g., computer labs, administrative offices, and staff rooms). Obsolete devices are inventoried and stored in a secure area until disposal.

#### 2. Reuse and Refurbishment:

Functioning components from outdated equipment are salvaged and reused in other devices. Old but operational devices are donated to schools or NGOs, promoting reuse.

#### 3. Recycling and Disposal:

The college partners with certified e-waste recycling agencies to ensure ethical and eco-friendly disposal of non-repairable equipment. Recycling agencies provide documentation to ensure traceability and compliance with legal requirements.

#### 4. Awareness Initiatives:

Workshops, seminars, and campaigns are conducted to educate students and staff about the importance of e-waste management. Students is encouraged to participate in e-waste drives, promoting hands-on learning about sustainable practices.

Uppal, Hyderabad-500092

## 5. Monitoring and Evaluation:

A committee comprising faculty members, administrative staff, and student representatives oversees the e-waste management process. Annual audits are conducted to track the quantity of e-waste generated and assess the effectiveness of recycling initiatives.

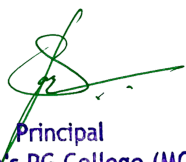

### Outcomes and Impact

- **Environmental Benefits:** Reduced environmental footprint by ensuring safe disposal of hazardous materials.
- **Resource Optimization:** Enhanced reuse and recovery of materials from discarded devices.
- **Awareness Building:** Increased awareness among students and staff about responsible e-waste practices, fostering a culture of sustainability.

### Future Plans

- Expand collaboration with local e-waste recycling firms for improved efficiency.
- Incorporate e-waste management topics into the curriculum for relevant courses.
- Set up a dedicated e-waste research lab to explore innovative recycling methods.

Aurora's PG College (MCA) remains committed to addressing the growing challenge of e-waste through proactive management practices. By integrating sustainability into the institutional framework, the college not only complies with regulatory requirements but also instills environmental responsibility among its stakeholders.
