Feedback Analysis and Action Taken Report (2019-2020)

Dt: 08-06-2020

Feedback was gathered from various stakeholders, including students, alumni, employers, and faculty, to evaluate the curriculum's effectiveness and identify areas for improvement. Based on the feedback received and discussions held, the following analysis and action plan have been developed:

I. Analysis

1. Student Feedback

Students highlighted the need for additional internship opportunities to gain practical exposure. They emphasised that internships would help them better understand workplace dynamics and build the skills required for real-world professional environments.

2. Alumni Feedback

Alumni recommended hosting more frequent sessions with distinguished speakers from academia and industry. These interactions, they noted, would broaden students' perspectives and provide valuable insights into evolving industry trends and best practices.

3. Employer Feedback

Employers pointed out the need for the curriculum to align more closely with industry standards. They suggested integrating add-on certifications and skill-enhancement programs to supplement the curriculum. Employers also advocated for encouraging students to leverage platforms like SWAYAM and NPTEL for self-paced learning in relevant areas.

4. Faculty Feedback

Faculty members emphasised the importance of students actively engaging in curricular and co-curricular activities to develop their organisational and leadership skills. They also encouraged students to take advantage of advanced online learning resources to enhance their academic and professional development.

II. Action Taken Report

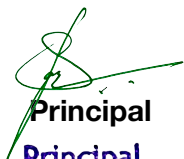

After detailed deliberations, the College Academic Committee and the Departmental Academic Committee finalised the following initiatives for the upcoming academic year:

- 1. Orientation Programs:** Organise a comprehensive orientation program for newly enrolled MBA and MCA students to familiarise them with institutional expectations, resources, and opportunities.
- 2. Skill-Enhancement Initiatives:** Introduce certificate programs, bridge courses, and specialised workshops tailored to address the gaps in the current university curriculum and encourage students to undertake internships that provide practical exposure and align with their academic goals.
- 3. Interactive Learning Opportunities:** Arrange regular guest lectures and interactive sessions with industry leaders and academic experts to provide insights into contemporary topics and industry practices.
- 4. Faculty Development Programs (FDPs):** Conduct FDPs focusing on innovative teaching methodologies and emerging areas in Business Management and Computer Applications.
- 5. Industry Collaboration:** Strengthen ties with industry partners to offer real-world projects, case studies, and hands-on learning opportunities for students.
- 6. Promoting Online Learning Platforms:** Encourage students to enrol in relevant courses on SWAYAM, NPTEL, and similar platforms to acquire additional skills and certifications.
